

Hello,

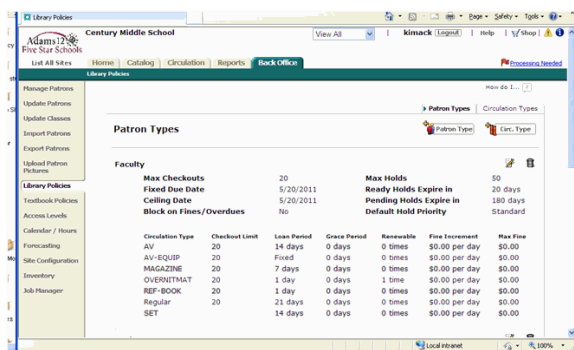

Some of you asked if you could have Student overdues roll into fines after 30 days, but NOT have Staff overdues roll into fines. No easy fix available. But here's an idea:

On the screenshot below, you can see that you could set all Faculty Fines to Zero and hope this would solve the problem. It does not (Thanks, Kathy P.). These Fines only affect Daily Fines charged - not overdue book fines.

One thing you could do, though, is make your staff checkout periods longer, so they don't roll into Fines as quickly. Your Faculty checkout periods do not have to match your Student check-out periods. Faculty checkout could and probably should, be longer times.

Consider making staff check-out periods for AV, Regular, or Set 60 days or 90 days or longer. We don't have to agree on these. Set your checkout periods as they make sense for your Faculty.

I will post this on our Wiki on the Destiny page too. Hope this helps. Kim
